CONTENTS

Helena Filipek-Wender and B. Borgström , Cholesterol esterase activity of rat pancreatic juice. Effect of pH and bile salt on the enzyme-catalysed equilibrium state	1
J. A. Sokal , Extraction procedures and their influence on the values of nicotinamide-adenine dinucleotides in frozen brain tissue	11
R. Niemiro, Lucyna Michalska and J. Wróbel , Incorporation of [³² P]orthophosphate into phospholipid of the intestine of normal rats	21
K. Toczko and S. M. Jaźwiński , Modification of chromatin by trypsin	31
Christian Maskos and Wanda Mejbaum-Katzenellenbogen , Lysine-rich histone in sulphosalicylic acid extract from muscles	39
L. Żelewski , The uptake of cholesterol <i>in vitro</i> by human term placental tissue	47
Karol Maskos , Participation of protein in the structure of deoxyribonucleic acid	57
Wanda Mejbaum-Katzenellenbogen and Karol Maskos , The effect of magnesium ions on the interaction of histones with deoxyribonucleic acid	67
Zofia Poremska, Anna Barańczyk and J. Jachimowicz , Arginase isoenzymes in liver and kidney of some mammals	77
Elżbieta Wolna, M. Wolny and T. Baranowski , The properties of crystalline phosphopyruvate hydratase from swine muscle	87
Zenona Grodzka and T. Chojnacki , Developmental changes in the activity of galactose-1-phosphate uridylyltransferase in the rat	93
Maria Sanecka-Obacz and T. Borkowski , Basic proteins of brain ribosomes	101
J. Kędziora , Isolation and properties of aspergillopeptidase from <i>Aspergillus fumigatus</i> . . .	109
W. J. Jachymczyk and B. Sieliwanowicz , The influence of basic proteins on polysomes. Studies on the reactivation of polysomes inhibited by histones in a cell-free system . . .	121
W. J. Jachymczyk, Renata Zawierucha and B. Sieliwanowicz , Activation of ribosomes from pea seeds by trypsin	129
W. Makarewicz and Elżbieta Maćkowiak , Adenosine-5'-monophosphate aminohydrolase of human placenta	135
Halina Sierakowska and D. Shugar , Phosphodiesterase II activity against nucleoside-3'-phosphate esters and some 5'-O-substituted analogues; and an improved ribonuclease substrate, <i>α</i> -naphthyl 5'-O-methyluridine-3' phosphate	143
W. Kędzierski and J. Pawelkiewicz , Interaction of lupin isoleucine-tRNA synthetase with isoleucine transfer ribonucleic acid measured by the thermal inactivation method . . .	153
P. Chomczyński and P. Szafrński , The effect of high salt concentration on fidelity of translation by <i>Escherichia coli</i> ribosomes	163
Teresa Szymczyk and Maria Jachimowicz , Metabolism of glucose in the sublingual gland of the rat, and the effect of insulin <i>in vitro</i>	171
Teresa Szymczyk, Bożenna Świątkowska and Maria Jachimowicz , Effect of alloxan-diabetes on the content of sialic acids and activity of uridylyltransferases in rat salivary glands . .	177
R. Kole and Halina Sierakowska , <i>α</i> -Naphthyl ribonucleoside-3'-phosphate analogues for the cytochemical and colorimetric assay of ribonucleases	187
